

The firm COINVEST S.C. Paweł Kowalski, Czesław Kowalski is realizing the project „Implementation of laser cutting technology in order to start the production of a new type of container for used electronic waste collection in the firm COINVEST S.C. Paweł Kowalski, Czesław Kowalski" co-financed from the European funds.

The Project's subject includes:

- purchase of the CNC Laser Cutting Machine;
- launching the computer module on the firm's website for the automation of the order-placing of containers.

The main goal of the project is the improvement of the firm's competitiveness by implementing in the production process two new types of the containers for used electronic waste collection.

The UE contribution to the project: 852 640,00 PLN.
